

The Christian radio station KLOVE is important to our community and others around the world. Too often our children are bombarded with hate and anger found in other music and talk shows. They do not choose this. If we have a station that plays music and talk that is never offensive, our children can grow up with love and praise. As usual for our society, we have something good for a change and it is in danger of being wiped out by the filth that is popular culture. Let God win one, and let us keep our clean music station.
